ArcelorMittal Europe Tubular Products – Automotive Business Unit

Standard feasibility chart

This dimensional chart represents AMTP Europe general capabilities in precision welded tubes. For specific requests or technical questions please contact us at the email address below.

We use the wide range of ArcelorMittal's steel grades and latest innovations:

- High Strength Low Alloy Steels Hot Rolled: from S315MC to S700MC
- High Strength Low Alloy Steels Cold Rolled: from HC260LA to HC600LA
- Quenchable Boron Steels: 22MnB5 - 26MnB5 - 30MnB5 - 34MnB5
- Dual Phase Steels: from DP500 to DP980
- Multi Phase Steels: CP800 SF
- Ferrito Bainitic Steels: FB450 - FB600
- Pre-coated steels: galvanized, aluminized, Zagnelis®

We have a solution for every application !

Our wide range of sizes together with our wide catalogue of steel grades allows us to offer anything the market could need.

In addition, we benefit from ArcelorMittal's program XCarb® gathering all initiatives towards carbon neutral steels:

- Green Steel certificates
- Recycled and renewed produced steels
